BTS ALUMINIUM

The VISTA Series by BTS Aluminium redefines simplicity and aesthetic in frameless glass railing systems. Designed for modern spaces that demand both transparency and durability, VISTA spigots deliver a clean aesthetic without compromising on performance. Whether used in residential balconies or commercial terraces, the VISTA Series ensures uninterrupted views.

VISTASERIES

Effortless Installation

VISTA spigots are engineered for efficient installation. With pre-drilled base plates and adapted glass fixings, they reduce installation time and offer flexibility on-site. Whether on concrete, wood, or steel surfaces, the VISTA Series allows quick and accurate alignment without special tools.

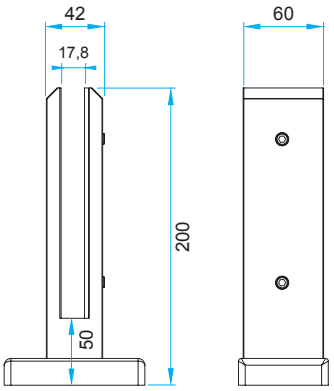

Reliable Performance

Vista Spigots are compatible with both monolithic and laminated glass types, typically ranging from 12 mm to 17,5 mm in thickness-making them ideal for balcony railings, staircases, pool fencing and more.
